

We **share** roles and **responsibilities** in the room

We **speak** to each other **positively**

**Everyone** who enters the room greets the children

We work to develop and maintain a **strong supportive team**

We **acknowledge each others' strengths** in the classroom

We can **rely on each other** for support in challenging situations

We **encourage** each other to have **meaningful relationships** with every child

**Everyone** interacts with children, joins their play, and initiates activities throughout the day

Our practice as a team focuses on **children's well-being** and **participation**

# Collaborative Teaming
