

# Nurturing Outdoor Play

Nurture the **discoveries, friendships, and communities** that I make in outdoor play spaces.

Play with me; help me develop a **community** and feel part of it.

Allow us to keep our creations to return to.

Bring inside **materials outside** to extend my play experiences.

Allow me to **choose** inside **materials** I really love right now to take **outside**.

Support opportunities for developmentally appropriate risky play.

Notice and name the feelings I experience when I'm outside.

Share the **importance of outdoor play with my family**; let them know what I need each day outside.

Expose me to many **different outdoor environments**.

Let's experience play in all different **weather conditions**.

Have **new materials** to explore on a regular basis (e.g. loose parts, sensory, etc.)
