

When I Feel Proud

Updated November 2024

Sometimes, I feel proud.

I like it when I feel proud.

I might feel proud when...

I win a game.

I'm working hard on something

I learn to do something all by myself.

I try something new.

I might feel proud in my body.

I might smile or
laugh when I feel
proud.

I might jump up
or down.

I might want to tell others.

When I feel proud,
I can share my pride with others.

I can use my words to tell people: “I feel proud!”

I can do other things when I feel proud.

I can give a high five.

I can hug someone.

I can show someone
what I am proud of.

I can give a little cheer.

If I notice someone working hard,
maybe I can tell them I am proud of them.

What will I feel proud of next?
